Higher Secondary Education(+2)	CBSE(Haryana)	95.6%
Secondary - High School	CBSE(Haryana)	95.6%

EXPERIENCE

Go and Do, USA(remote work) — *Python Developer*

June 2022 - present

I work for this non-profit organization as a volunteer, and I help them in maintaining their software and implementing changes in their software code, as a python developer as their systems are based and run on python and some other languages.

The Unorganized Camper, Canada(remote work) — *React and Wordpress Developer*

August 2022 - October 2022

Initially, I worked here as a Wordpress Website developer, and in the later stage as a React developer.

PROJECTS

Blogify(Design and UI, Backend) — Full Stack blog website

A blog website made with NEXT.js and Firebase for the backend, used Tailwind CSS as the styling engine.

Link - https://blogify-bay.vercel.app/

RTTDA (Design and UI, Backend) — *Real Time todo app*

A todo website made to organize your tasks. Made with NEXT.js and Firebase for the backend, used Tailwind CSS as the styling engine.

Link - https://rttda.vercel.app/
